### Storage

Store product at 2-8°C; once opened the product has a shelf- life of 120 days

### Safety Precautions

The human sera contained in this product have been tested and found negative for HCV, HbSAg and HIV 1&2 by ELISA methods. Since no one test is 100% accurate, the product should be handled as if potentially infectious. Operators should wear gloves and protective clothing when handling these products. This product contains 0.09% sodium azide as preservative and is classified as non-hazardous according to EC Directives.
